

Cable routing on the DOCO HOME system

Time-saving and convenient routing of cables on your door

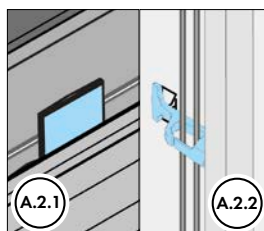

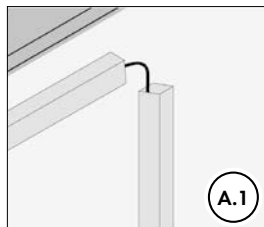

Routing cables, e.g.: photocell connecting cables, control lines for external devices etc. for your door is no longer a problem with the SOMMER line and cable holder sets.

Simply clip the sets, which were especially designed for the DOCO home system into the recesses provided and use them to route and secure the cables.

No bothersome and time-consuming drilling required!

The clips are available in sets with or without a cable duct. The time-saving and convenient way to route cables on your door.

Cable routing set for frame and lintel panel

S10730-00001	• 1 x 1950 x 15 x 15 mm cable conduit
