

# Emergency release lock

Reliable release for garage door operators

## Benefits:

- e.g. for sectional doors, sectional horizontal doors or side hinged doors
- small lock with a discreet appearance
- 2,200 mm string; protection cap
- secure anti-twisting device: fixing screws ensure a reliable release every time
- easy and exact installation: no step drill necessary
- all emergency release locks "master key" can be opened with # 5116-100V100

## ARTICLE

<b>Emergency release lock 13 mm Standardkey</b> , length 50 mm string length 2200 mm for panel thickness up to 42 mm	#5116V000
<b>Emergency release lock 13 mm Masterkey</b> , length 50 mm string length 2200 mm for panel thickness up to 42 mm	#5116V100
<b>Key blank</b> for release lock, 13/18 mm 1 pair	#5116-000V000
<b>Masterkey</b> for release lock, 13/18 mm 1 pair	#5116-100V100
<b>Emergency release lock 13 mm Standardkey</b> , length 70 mm string length 2200 mm for panel thickness up to 62 mm	#5116V003
<b>Emergency release lock 18 mm Standardkey</b> length 50 mm string length 2200 mm for panel thickness up to 42 mm	#80103
<b>Emergency release lock 18 mm Masterkey</b> length 50 mm string length 2200 mm for panel thickness up to 42 mm	#80104

**Note:** The master key (#5116-100V100) fits all "master key" emergency release locks (#5116V100, #80104). The master key system is therefore particularly well suited for property managers. The supplied keys of the "master key" emergency release locks are not compatible with each other.
