

# LED traffic lights

Economical and light-intense

With the LED traffic lights from SOMMER you will experience the latest technology of two way traffic control.

The LED traffic lights are considerably more economical than traffic lights with light bulbs. Furthermore they have a 100 times longer life time. The illuminants have to be changed less often which means the operation and service costs are less.

SOMMER reliability: If the light bulb fails, the light goes out. If one of the LEDs fails, it is still guaranteed by electronic technique that the other LEDs will continue working.

## Benefits:

- the long life time of over 30,000 hours  
(light bulbs: approx. 300 hours)
- low power consumption (< 6 W)
- available in 24V and 230V
- vibrate- and shockproof
- simple installation
- pluggable and low-maintenance
- external and internal use  
(water-proof)
- IP 65 protection class
- incl. illuminant
- modular style
- no hollow body which can implode

## LED traffic lights (IP 65)

red traffic light	(24 V)	# 5230V000
red traffic light	(230 V)	# 5231V000
green traffic light	(230 V)	# 5232V000
