

SOMweb

The secure Smart Home solution where your data stay in the garage

The Smart Home solution allows you to control operators extremely simply via app or browser from a smartphone, tablet or PC. The data is safe, as it is not saved on external servers, but literally remains at home.

Functions

- Open or close the door
- Check the door status
- Up to 10 operators can be controlled with a SOMweb.
- Optional video function via bookable video plug-in.
- Including user management and access control for 10 users
- Optional expansion to 50 users or an unlimited number of users via bookable user plug-ins.
- Real-time notification of door or gate movements by app or e-mail.
- The **HomeKit** technology allows the use of the Apple Home App to create set-ups combining various devices. For example, to switch the hall light on automatically when you open the garage in the evening.
- Creation of own events via the **IFTTT** platform. For example, automatic opening and closing of the garage at a defined distance from the door or at a specified time.
- Supports **voice control** via **Siri** and **Google Assistant**. Voice control via **Amazon Alexa** is possible using IFTTT.

Technology

- **No saving or processing of data on external servers.**
- Communication between SOMweb and radio receiver via SOMloq2 radio control system with 128-bit AES encryption. No wiring to the operator is necessary.
- The SOMweb requires no additional sensors for detection of the door status.
- Integrated WiFi module
- USB port (e. g. for connection of a LAN adapter)
- Universal for smartphone, tablet or PC
- Apps for operation are available for Android and iOS.
- Operation is possible via all common browsers. This makes the system independent of the operating system used.
- Can be controlled via the home network or via the Internet.

SOMweb app

Free apps for the Android operating system and iOS are available for download from Google Play and in the App Store.

The operator only functions with a connected photocell.

Compatibility

Smart Home solution for operators, barriers and roller door control units with SOMloq2 radio system. To find out whether your product is compatible with SOMweb, see www.som4.me/sh. Further operator types and radio receivers to follow.
