

The smart sliding gate operator STArter S2⁺ is the ideal operator for gates with a movement range of up to 8 m and a gate weight of 400 kg. His intelligent control offers a wide range of connection options. In addition to convenient operation via radio control system, he can be integrated into the Smart Home systems SOMweb and Delta Dore.

Bi-directional radio control system

128-bit AES encryption with Rollingcode

Disturbance-resistant radio signal

Supports the SOMlink service interface

Technical data

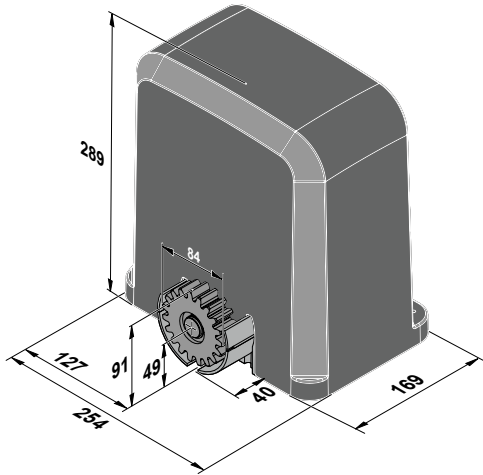

Rated voltage	220–240 V AC
Rated frequency	50/60 Hz
Min. temperature	–20 °C
Max. temperature	+50 °C
IP code	IP54
Max. torque	11 Nm
Max. speed	240 mm/s
Power consumption in standby	3 W

Operating mode	S3 30 %
Min. movement range	1.400 mm
Max. movement range	8.000 mm
Max. gate weight	400 kg
Gate inclination	–
Radio control system	SOMloq2
Radio frequency	FM 868,95 MHz

A passive rubber profile is sufficient. Active safety contact strips must be used on the main and auxiliary closing edges with the STArter S2⁺.

Dimensional drawing

All dimensions are in millimetres. Subject to misprints, errors and technical changes.

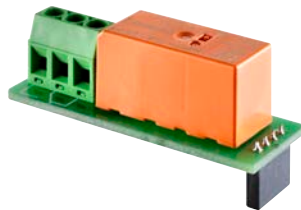

Accessories

Memo

Expands the memory of the handheld transmitter to 450 handheld transmitter commands. Allows the use of transmitter management Codemaster⁺.

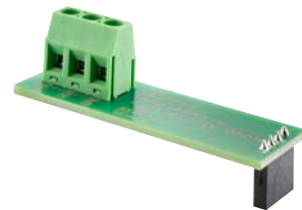

10373

Relay

Relay with potential-free changeover contact for activating external lighting or querying the opening status.

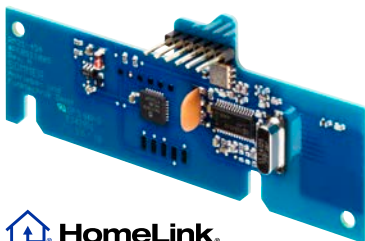

7042V000

Output OC

Open collector output for transmission of a static signal for display of the opening status to Smart Home systems or for activation of additional lighting with 24 V.

S10854-00001

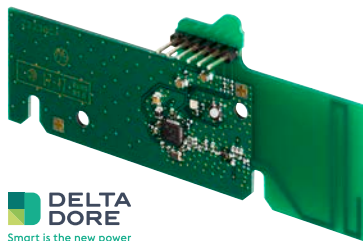

HomeLink

HomeLink radio receiver module

With the HomeLink radio receiver, the sliding gate operator can be upgraded to the HomeLink radio control system. The sliding gate operator can then be controlled with a HomeLink transmitter integrated in the vehicle.

S11004-00001

Delta Dore X3D module

The module integrates the sliding gate operator into the Delta Dore Smart Home system. This allows you to control and query the position of the operator via the Tydom app from Delta Dore.

S11561-00001

Buzzer

Alarm or warning buzzer that outputs an acoustic signal reporting a break-in attempt or during the closing process.

7043V000
