

# Wall station

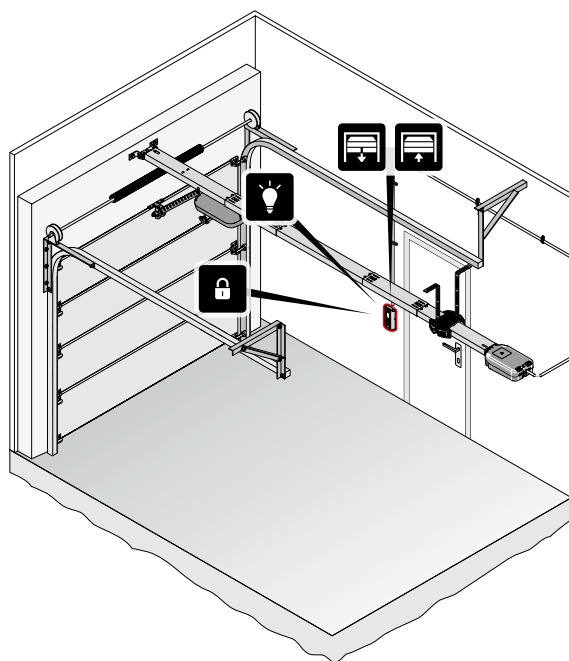

The convenient wall switch for the garage

This wall station<sup>1)</sup> for the garage door operators SOMMER base<sup>+</sup> and SOMMER pro<sup>+</sup> offers further functions. With the 3-command wall switch, you can open, stop and close the garage door, switch the operator lighting on and off or use the holiday function for added security in your home.

## Advantages:

- 2-wire interior wall switch with three commands
- ① Button for opening, stopping and closing the garage door
- ② Button for switching the operator lighting on and off
  - Illuminated button aids orientation in darkness
- ③ With the button for the holiday function, you can lock radio equipment, the external button and the ventilation function via the Senso of the operator.
  - Simple read-out of status via the status display (locked/unlocked)
  - The selection of the locked areas can be changed via the SOMlink service interface.
- The power supply is provided via the operator, so no separate power supply is needed.
- Simple connection via polarity-protected 2-wire bus.
- Dimensions: 128×65×17.5 mm

Date: 08/2018. Subject to misprints, errors and technical changes. 1) The wall station is only supported by operators from 07/2017.
